Influence on PPES by Unauthorized Access to the File Server of Panasonic

Prime Planet Energy & Solutions, Inc. (PPES) informs you of the influence on PPES with regard to "Notice of Unauthorized Access to File Server" (*1), announced by Panasonic Corporation on November 26.

PPES received a report from Panasonic on November 18, that the file server of Panasonic which PPES is borrowing and using had been illegally accessed by a third party and a part of the accessed data contained that of PPES. We were also reported that in the later investigation, a part of the data of Panasonic's file server was read illegally, however, it is not become clear at present whether PPES's data is included.

We are now investigating the details of accessed data and reporting to those who may be influenced immediately. Also, we carry out thorough prevention of the damage expansion and recurrence in cooperation with Panasonic.

We sincerely apologize for causing great concern and inconvenience resulting from this incident.
